1137 MITCHELL ROAD • AURORA, ILLINOIS 60505

used Trennjaeger Longitudinal Circular Non Ferrous Saw Model PMC 6

Designed for longitudinal and cross cutting of aluminum sections, plates and billets in straight and miter cuts.

Machine capacities are: cutting height: 6", 90° cutting length: 24". 45° miter cutting length: 18"

- Machine stand of solid steel construction.
- Planed machine table of high tensile strength steel.
- Cutting head unit adjustable dovetail guides.
- Gear box with large helical hardened gears.
- For carbide circular cold saw blade of 470mm (18") diameter.
- Centralized lubrication system for guide tracks of cutting head carriage.
- 10 hp drive motor with vee belt step pulley for 2 saw blade speeds 2500 and 4000 rpm.
- Soft saw motor starter with overload protection.
- Complete hydraulic equipment. Hydraulic motor, 1.5 HP, 1500 RPM, pump, pressure gauge and thermo-magnetic motor protection switch.
- Manual control valves for saw feed and vertical and horizontal clamping.
- Two vertical clamping cylinders with 12" stroke, adjustable longitudinally and one horizontal clamping cylinder with 1½" stroke adjustable laterally.
- All hydraulic and electrical installations are easily accessible.
- Built-in tool and electrical cabinets.
- Machine finish - gray.
- Operation voltage: 220/440 Volts, 60 cycle specify.
- Optional mist coolant system.
- Optional 6000 ft/min Chip Collector
- Optional turntable to turn machine into the line of material flow for miter cuts.

Delivery: from stock, subject to prior sale

Terms: 50% down balance before removal

PRICE: F.O.B. Aurora, IL **Saw \$22,500.00** **Turntable \$2500.00**
Acculube Mist Coolant \$950.00 **KEI Chip Vacuum \$1250.00**
